Experience

Frontend Developer Intern

Early-stage Startup (Building Stage), [Remote]
(2 Months)

- Collaborated with the development team to build and enhance the company website using **ReactJS**.
- Designed and implemented user-friendly interfaces, focusing on **UI/UX** principles to improve user engagement and satisfaction.
- Developed mobile applications using **React Native**, ensuring a seamless experience across devices.
- Participated in brainstorming sessions to gather requirements and provide input on design and functionality.
- Utilized **Git** and **GitHub** for version control, ensuring efficient collaboration and project management.

Projects

E-commerce Product Listing App

Live Application : [E-commerce App](#)

Tech Stack: React.js, Redux Toolkit, CSS

- Developed an interactive homepage slider, enhancing **user engagement**.
- Implemented **3+ filtering options** (search, sort, category) for seamless product discovery.
- Built a **persistent cart feature** using Local Storage, improving the shopping experience for **100% of users**.
- Designed a **100% responsive interface**, ensuring smooth usability across devices.

- Managed **global state efficiently** using Redux Toolkit for scalability.
- Developed **10+ reusable React components**, optimizing UI consistency and performance.

Budget Tracker App

Live Application : [Budget Tracker App](#)

Tech Stack: React.js, Chart.js, jsPDF

- Built an expense tracker with **5+ categorization options**, visualized through interactive charts.
- Integrated **PDF report generation**, enabling users to download **detailed transaction summaries in one click**.
- Implemented a **real-time search feature**, reducing transaction lookup time by **50%**.
- Ensured **100% mobile responsiveness**, improving accessibility across all screen sizes.
- Incorporated **3+ external libraries** (Redux Toolkit, Chart.js, jsPDF) for added functionality.
